

## Accessing care.

- Following recent guidance from NHS England and the Department of Health, dental practices have been advised to **STOP AEROSOL SPRAYS** and **PRIORITISE URGENT TREATMENT** where possible.
- As well as reducing risk to staff and patients, this will also prevent unnecessary travel in an attempt to reduce virus transmission. This information aims to advise people in pain who still need to access care and also support people in managing minor symptoms at home.

If you need to access emergency care:

- Have you or anyone in your house been self isolating?
- Do you have any symptoms?
- High temperature or continuous cough?

If **YES** to any of the above, **CALL 111**. They will direct you to an emergency facility with appropriate protective equipment which will allow staff to treat you safely.

**KEEP  
CALM  
AND  
STAY  
AT HOME**
